## EDUCATION

● **Bachelor of Computer Science**
University of Lahore
2016 - 2020

## EXPERIENCE

● **Software Engineering Supervisor ( Sep 2023 - Present)**
PrimeX Broker

As a Software Engineering Supervisor at PrimeX Broker, I have been leading a dynamic team of developers since September 2023. Based in Dubai, we focus on delivering cutting-edge financial solutions and enhancing our trading platform to meet the evolving needs of our clients. With a strong background in custom website development, responsive design, and API integration, we ensure our projects are executed with precision and excellence.Together,

we have achieved significant milestones, including the development of a fully integrated chat widget and support system for our customer service team. We also automated mailing systems using SendPulse, created a robust website, and developed a comprehensive panel for our marketing team. Our collaborative efforts drive innovation and maintain our competitive edge in the market.

● **MERN Stack Developer  ( Contract 1 year ) ( Sep 2022 - Sep 2023)**
Hive Digital Solutions

As a MERN Stack Developer at Hive Digital Solutions UAE, I worked from September 2022 to September 2023 on a contract basis in Dubai. During this time, I collaborated closely with a talented team to develop a comprehensive shipping system. Our collective efforts resulted in a robust and efficient solution that streamlined shipping processes, improved logistics management, and enhanced overall operational efficiency. By leveraging our skills in full-stack web development, we ensured the system was scalable, user-friendly, and integrated seamlessly with existing platforms. This experience honed my ability to work effectively in a team-oriented environment and deliver high-quality results

## ABOUT ME

As a dedicated web developer with 5 years of professional experience, I have played a pivotal role in designing, developing, and maintaining interactive and user-friendly websites and web applications. My passion for clean code, attention to detail, and commitment to staying up-to-date with industry trends have enabled me to deliver high-quality solutions for a diverse range of clients and projects

# EXPERIENCE

**MERN Stack Developer | Team Lead  ( Feb 2021- July 2022 Project Based )**
Hashlogics

As a MERN Stack Developer and Technical Team Lead at Hashlogics from March 2022 to July 2022, I led a project aimed at creating a platform for students to make their studies easier and more engaging. Working with a dedicated team, we developed an innovative educational platform that integrated interactive elements to enhance the learning experience. Our collaborative efforts ensured the platform was user-friendly, engaging, and effective in helping students achieve their academic goals. This role highlighted my ability to lead technical projects and work collaboratively to deliver impactful solutions.

**Full Stack Developer ( Feb 2021 - Feb 2022)**

Data Magnetic

As a Full Stack Developer specializing in the MERN Stack at Data Magnetics from February 2021 to February 2022, I was involved in developing and maintaining various websites. During this period, I also led the creation of a fully automated HR admin panel for hiring purposes, streamlining the recruitment process. Additionally, I developed a system for the finance team to calculate prices from customers and manage staff salaries efficiently. Collaborated with cross-functional teams to ensure the seamless operation and continuous improvement of our web solutions
